Java Persistence with Jpa 2.1 Daoqi Yang

This book is the second edition to my previous book: Java Persistence with JPA (Outskirts Press, Denver, March 2010, ISBN: 978-1-4327-5585-0). It adds the new features of JPA 2.1, reorganizes some existing chapters, and updates code examples and tools. The goal of this book is to provide a concise and comprehensive coverage of JPA 2.1, which is part of Java EE 7 but can be used in Java SE as well. Concepts are illustrated through code examples for easy understanding. It may serve as an introductory text for Java developers who do not know anything about JPA, and a reference book for experienced JPA developers who may look up for concepts and code snippets while they develop complex JPA applications. This book covers Java Persistence API 2.1, the latest Java technology on persisting Java objects to relational databases. This is a new Java persistence standard based on object-relational mapping and utilizing object-oriented features of Java. It is expected to gradually replace JDBC and proprietary object-relational mapping frameworks and libraries for most Java applications with database access. JPA makes software development fun and leads to improved productivity. The book introduces concepts, techniques, and application trade-offs in a manner that is easy to understand and provides many code examples for an online book ordering system. The Java source code and database DDL scripts are freely downloadable from the author's web site. The book contains instructions on how to run the code examples so that the reader can easily learn the concepts through running the code. The book is suitable for Java developers and architects who want to learn this new and standard technology, but may not have prior knowledge of JPA. This book is also aimed at experienced JPA developers who may use this book as a reference, by providing complete coverage of JPA 2.1. It has a special chapter on JPA design patterns and performance tuning. This book will prove to be valuable for novice a

From reader reviews:

Celia Redmond:

Reading a reserve tends to be new life style with this era globalization. With studying you can get a lot of information that may give you benefit in your life. Along with book everyone in this world can easily share their idea. Books can also inspire a lot of people. Lots of author can inspire their very own reader with their story or even their experience. Not only situation that share in the publications. But also they write about advantage about something that you need instance. How to get the good score toefl, or how to teach your children, there are many kinds of book that you can get now. The authors nowadays always try to improve their ability in writing, they also doing some exploration before they write to the book. One of them is this Java Persistence with Jpa 2.1.

Barbara Butler:

Your reading 6th sense will not betray you actually, why because this Java Persistence with Jpa 2.1 guide written by well-known writer we are excited for well how to make book which might be understand by anyone who all read the book. Written throughout good manner for you, leaking every ideas and producing skill only for eliminate your personal hunger then you still question Java Persistence with Jpa 2.1 as good book not merely by the cover but also through the content. This is one book that can break don't judge book by its include, so do you still needing a different sixth sense to pick this!? Oh come on your examining sixth sense already alerted you so why you have to listening to another sixth sense.

Leon Moses:

Is it anyone who having spare time then spend it whole day by means of watching television programs or just laying on the bed? Do you need something new? This Java Persistence with Jpa 2.1 can be the answer, oh how comes? A fresh book you know. You are consequently out of date, spending your extra time by reading in this new era is common not a geek activity. So what these publications have than the others?

Guillermo Behler:

Reading a book make you to get more knowledge from the jawhorse. You can take knowledge and information coming from a book. Book is published or printed or created from each source that will filled update of news. With this modern era like at this point, many ways to get information are available for anyone. From media social like newspaper, magazines, science reserve, encyclopedia, reference book, book and comic. You can add your understanding by that book. Are you hip to spend your spare time to open your book? Or just looking for the Java Persistence with Jpa 2.1 when you necessary it?
