Sensor and Data Fusion: A Tool for Information Assessment and Decision Making (SPIE Press Monograph Vol. PM138SC) Lawrence Klein

This book describes the benefits of sensor fusion as illustrated by considering the characteristics of infrared, microwave, and millimeter-wave sensors, including the influence of the atmosphere on their performance, sensor system application scenarios that may limit sensor size but still require high resolution data, and the attributes of data fusion architectures and algorithms. The data fusion algorithms discussed in detail include classical inference, Bayesian inference, Dempster-Shafer evidential theory, artificial neural networks, voting logic as derived from Boolean algebra expressions, fuzzy logic, and detection and tracking of objects using only passively acquired data. A summary is presented of the information required to implement each of the data fusion algorithms discussed.

Weather forecasting, Earth resource surveys that use remote sensing, vehicular traffic management, target classification and tracking, military and homeland defense, and battlefield assessment are some of the applications that will benefit from the discussions of signature-generation phenomena, sensor fusion architectures, and data fusion algorithms provided in this text.

Contents

- List of Figures
- List of Tables
- Preface
- Introduction
- Multiple Sensor System Applications, Benefits, and Design Considerations
- Data Fusion Algorithms and Architectures
- Classical Inference
- Bayesian Inference
- Dempster-Shafer Evidential Theory
- Artificial Neural Networks
- Voting Logic Fusion
- Fuzzy Logic and Fuzzy Neural Networks
- Passive Data Association Techniques for Unambiguous Location of Targets
- Retrospective Comments
- Appendix A: Planck Radiation Law and Radiative Transfer
- Appendix B: Voting Fusion with Nested Confidence Levels
- Index

From reader reviews:

Linda Long:

Book is to be different for each grade. Book for children till adult are different content. As we know that book is very important for us. The book Sensor and Data Fusion: A Tool for Information Assessment and Decision Making (SPIE Press Monograph Vol. PM138SC) ended up being making you to know about other know-how and of course you can take more information. It is quite advantages for you. The publication Sensor and Data Fusion: A Tool for Information Assessment and Decision Making (SPIE Press Monograph Vol. PM138SC) is not only giving you a lot more new information but also to become your friend when you sense bored. You can spend your personal spend time to read your e-book. Try to make relationship using the book Sensor and Data Fusion: A Tool for Information Assessment and Decision Making (SPIE Press Monograph Vol. PM138SC). You never really feel lose out for everything in the event you read some books.

Robert Doyle:

As people who live in the modest era should be up-date about what going on or facts even knowledge to make all of them keep up with the era and that is always change and move forward. Some of you maybe can update themselves by reading through books. It is a good choice to suit your needs but the problems coming to a person is you don't know which you should start with. This Sensor and Data Fusion: A Tool for Information Assessment and Decision Making (SPIE Press Monograph Vol. PM138SC) is our recommendation to make you keep up with the world. Why, because this book serves what you want and need in this era.

Mary Killgore:

This Sensor and Data Fusion: A Tool for Information Assessment and Decision Making (SPIE Press Monograph Vol. PM138SC) is great publication for you because the content which can be full of information for you who always deal with world and get to make decision every minute. This particular book reveal it data accurately using great organize word or we can claim no rambling sentences within it. So if you are read the item hurriedly you can have whole details in it. Doesn't mean it only offers you straight forward sentences but tricky core information with lovely delivering sentences. Having Sensor and Data Fusion: A Tool for Information Assessment and Decision Making (SPIE Press Monograph Vol. PM138SC) in your hand like obtaining the world in your arm, data in it is not ridiculous a single. We can say that no reserve that offer you world inside ten or fifteen small right but this guide already do that. So , this really is good reading book. Hey Mr. and Mrs. busy do you still doubt that will?

Jennifer Lorenzo:

Guide is one of source of information. We can add our know-how from it. Not only for students and also native or citizen have to have book to know the update information of year to help year. As we know those publications have many advantages. Beside all of us add our knowledge, could also bring us to around the

world. By book Sensor and Data Fusion: A Tool for Information Assessment and Decision Making (SPIE Press Monograph Vol. PM138SC) we can have more advantage. Don't you to be creative people? To become creative person must like to read a book. Just choose the best book that appropriate with your aim. Don't be doubt to change your life at this book Sensor and Data Fusion: A Tool for Information Assessment and Decision Making (SPIE Press Monograph Vol. PM138SC). You can more pleasing than now.
