**The stunning conclusion to the Bones of Faerie trilogy is here!**

After a devastating war between humanity and Faerie, Liza's world was forever changed. Plants and trees became aggressive, seeking to root in living flesh and bone, and newborn children were discovered to have magical powers. Liza was one of these children, and with her abilities she brought her mother back from the ruined Faerie realm and restored the seasons to her own.

Now there are signs of a new sickness in the forest. Piles of ash are found where living creatures once stood. Liza investigates and discovers that the Faerie realm has continued to deteriorate, slowly turning to dust, and that its fate is inexorably linked to that of the human realm. To find a solution, Liza must risk crossing over, putting herself and all she cares about at risk. Will Liza be forced to sacrifice her life and the lives of her friends in order to save both worlds?
