Machine Learning Refined: Foundations, Algorithms, and Applications Jeremy Watt, Reza Borhani, Aggelos Katsaggelos

Providing a unique approach to machine learning, this text contains fresh and intuitive, yet rigorous, descriptions of all fundamental concepts necessary to conduct research, build products, tinker, and play. By prioritizing geometric intuition, algorithmic thinking, and practical real world applications in disciplines including computer vision, natural language processing, economics, neuroscience, recommender systems, physics, and biology, this text provides readers with both a lucid understanding of foundational material as well as the practical tools needed to solve real-world problems. With in-depth Python and MATLAB/OCTAVE-based computational exercises and a complete treatment of cutting edge numerical optimization techniques, this is an essential resource for students and an ideal reference for researchers and practitioners working in machine learning, computer science, electrical engineering, signal processing, and numerical optimization.

From reader reviews:

Gary Lafountain:

Have you spare time for any day? What do you do when you have more or little spare time? Sure, you can choose the suitable activity intended for spend your time. Any person spent all their spare time to take a wander, shopping, or went to the actual Mall. How about open or maybe read a book called Machine Learning Refined: Foundations, Algorithms, and Applications? Maybe it is being best activity for you. You already know beside you can spend your time with the favorite's book, you can cleverer than before. Do you agree with it is opinion or you have other opinion?

Todd Jacob:

Playing with family in the park, coming to see the water world or hanging out with close friends is thing that usually you will have done when you have spare time, in that case why you don't try issue that really opposite from that. A single activity that make you not feeling tired but still relaxing, trilling like on roller coaster you are ride on and with addition info. Even you love Machine Learning Refined: Foundations, Algorithms, and Applications, you may enjoy both. It is excellent combination right, you still need to miss it? What kind of hang type is it? Oh can occur its mind hangout folks. What? Still don't have it, oh come on its referred to as reading friends.

Rick Braden:

In this period of time globalization it is important to someone to receive information. The information will make anyone to understand the condition of the world.
