Satanic Revolution: A Sorcerer's Manual (Part 1) Michael Sartin

This tome shall dissect the very heart and soul of the supposed posits of magic down to its very core, thus essentially casting aside the mumbo-jumbo that most are molded to "believe" as the actual counterparts to the art and science of magic. Hence, this literary infrastructure will lead the reader to gaze at the Self in unity with the force of life, *life-force*, as the actual counterparts on the basis of magic/psychodramatic workings. And through this, the sorcerer/sorceress will have a more advanced, foundational understanding on the very subliminal mind/force that is in charge, which works behind their attempts at creating change within their unique environment.

Also provided within, are the essential tools to be applied towards desiderative elements of reality, the very "subliminal layers" that lay dormant from one's Awareness, that which is responsible for the cast of one's "Will" to remain immobile and immaterialized. Upon careful examination and application of these most vital components, which linger within these enigmatic pages, the practitioner will then gain the propensity to move the very seed of his is-to-be into the world of animation, thereby manifesting dream fruition with much ease.
