## **Sound in Motion: A Performer's Guide to Greater Musical Expression** David McGill

David McGill has assembled an exhaustive study that uses the musical concepts of the legendary Marcel Tabuteau as a starting point from which to develop musical thought. McGill methodically explains the frequently misunderstood "Tabuteau number system" and its relationship to note grouping-the lifeblood of music. The controversial issue of baroque performance practice is also addressed. Instrumentalists and vocalists alike will find that many of the ideas presented in this book will help develop their musicianship as well as their understanding of what makes a performance "musical."
