Research Advances in the Integration of Big Data and Smart Computing (Advances in Computational Intelligence and Robotics)

Pradeep Kumar Mallick

Research Advances in the Integration of Big Data and Smart Computing (Advances in Computational Intelligence and Robotics) Pradeep Kumar Mallick

The volume, complexity, and irregularity of computational data in modern algorithms and simulations necessitates an unorthodox approach to computing. Understanding the facets and possibilities of soft computing algorithms is necessary for the accurate and timely processing of complex data.

Research Advances in the Integration of Big Data and Smart Computing builds on the available literature in the realm of Big Data while providing further research opportunities in this dynamic field. This publication provides the resources necessary for technology developers, scientists, and policymakers to adopt and implement new paradigms in computational methods across the globe.

The chapters in this publication advance the body of knowledge on soft computing techniques through topics such as transmission control protocol for mobile ad hoc networks, feature extraction, comparative analysis of filtering techniques, big data in economic policy, and advanced dimensionality reduction methods.

From reader reviews:

Martina Joseph:

Reading can be called imagination hangout, why? Because if you find yourself reading a book especially a book entitled Research Advances in the Integration of Big Data and Smart Computing (Advances in Computational Intelligence and Robotics) your thoughts will drift away through every dimension, wandering in each and every aspect that maybe unfamiliar for but surely can become your mind friends. Imaging every single word written in an e-book then become one web form conclusion and explanation that will maybe you never get prior to. The Research Advances in the Integration of Big Data and Smart Computing (Advances in Computational Intelligence and Robotics) giving you one more experience more than blown away your thoughts but also giving you useful facts for your better life with this era. So now let us demonstrate the relaxing pattern here is your body and mind is going to be pleased when you are finished reading it, like winning a sport. Do you want to try this extraordinary spending spare time activity?

Louise Graham:

Do you one of the book lovers? If yes, do you ever feeling doubt if you are in the book store? Try and pick one book that you find out the inside because don't judge book by its deal with may doesn't work at this point is difficult job because you are scared that the inside maybe not as fantastic as in the outside appear likes. Maybe your answer could be Research Advances in the Integration of Big Data and Smart Computing (Advances in Computational Intelligence and Robotics) why because the fantastic cover that make you consider about the content will not disappoint you actually. The inside or content is fantastic as the outside as well as cover. Your reading 6th sense will directly make suggestions to pick up this book.

Charlie Attwood:

Are you kind of occupied person, only have 10 or perhaps 15 minute in your day to upgrading your mind skill or thinking skill also analytical thinking? Then you are experiencing problem with the book when compared with can satisfy your short period of time to read it because this time you only find reserve that need more time to be examine. Research Advances in the Integration of Big Data and Smart Computing (Advances in Computational Intelligence and Robotics) can be your answer because it can be read by a person who have those short time problems.

Andrew McConnell:

Reading a book for being new life style in this season; every people loves to read a book. When you study a book you can get a large amount of benefit. When you read books, you can improve your knowledge, since book has a lot of information in it. The information that you will get depend on what kinds of book that you have read. If you would like get information about your examine, you can read education books, but if you want to entertain yourself look for a fiction books, such as novel, comics, and soon. The Research Advances in the Integration of Big Data and Smart Computing (Advances in Computational Intelligence and Robotics)

offer you a new experience in examining a book.
