Spiritual Astro-Numerology combines a mixture of Astrology and Numerology to analyse a subject's spiritual pathway. Within this book an analysis for each of the Chinese Animal Years, along with Traditional Astrological Birth Signs and Ruling Planets is included. Numerological analysis of the Inner and Outer Personality, Soul and Life Lesson Pathways, and Current and Future Years influence of the numbers is also included. Readers will even discover their Colour Ray. This guide is easy to use, enlightening, and fun. Spiritual teachers throughout recorded history have told us that there is an order to the universe. That nothing happens purely by chance. That behind all there is purpose, and a plan, that the universe was not created by chance. Everything, everyone, finds expression in a way that reflects a mathematical certainty, a structured, organised, geometry. Astrology and Numerology are reflections of what we have been able to discern or unravel of the mysteries of creation. These are the names we have given to these esoteric forms of art and science. Through them we have also learned to glean information about ourselves, human nature, and our pathway within creation. In other words a little about the purpose for our existence and what our lives are likely to entail and bring us into contact with, and which lessons we are more specifically here to experience. The purpose of physical incarnation is to enlighten the spirit within, and raise its vibration, so that it might, as it were, be forged and tempered for its next step upon its eternal journey; of which existence in physical form represents but a small step upon the never-ending pathway towards enlightenment, as we might call more advanced stages of existence or spiritual evolution.
