A motor-flight through France (1908) by Edith Wharton (Illustrated) Edith Wharton

Shedding the turn-of-the-century social confines she felt existed for women in America, Edith Wharton set out in the newly invented "motor-car" to explore the cities and countryside of France. In *A Motor-Flight Through France*, originally published in 1908, Wharton combines the power of her prose, her love for travel, and her affinity for France to produce this compelling travelogue.
