## **Nocturne: Creatures of the Night** Traer Scott

Whether fierce, cuddly, startling, mysterious, or some indefinable combination of all of the above, nocturnal animals never fail to fascinate. In *Nocturne: Creatures of the Night*, celebrated animal photographer Traer Scott takes the viewer on a journey through nighttime in the animal kingdom, revealing some of nature's most elusive creatures. Bats, big cats, flying squirrels, tarantula, owls, kangaroo mice, giant moths, sloth, several species of snakes, and a Madagascar hissing cockroach are only a few of the animals illuminated in these lushly detailed portraits. Seventy-five full-color photographs of forty different species are accompanied by informed but accessible descriptions of each animal's habits and habitats, and an introduction provides personal insight into how Scott captures her astonishing images. *Nocturne* is a compelling view of the rarely seen darkness dwellers who populate the night.
