Arnaud Henry-Labordère

Virtual Roaming Data Services and Seamless Technology Change: GSM, LTE, WiFi, Satellite, CDMA (River Publishers Series in Communications) Arnaud Henry-Labordère

The subject is "Virtual Roaming for data services" and "Seamless Technology change" also called "Number Continuity". "Virtual Roaming for voice and SMS" was covered in one of the author's previous book. "Virtual Roaming" means that it allows a subscriber to visit a network which his home network does not have an agreement with. The "Seamless Technology change" allows a user to keep all his services including reception of calls and SMS sent to his usual number when he switches his GSM to a Satellite phone or to WiFi. The implementation of Seamless Technology change uses the SS7 Roaming Hub and GTP Hubs technology explained in the first part of the book. The book also contains chapters explaining in detail the steering and anti-steering of roaming, LTE Serving Mobile Location Centers, and Advanced Policy and Charging implementations in LTE and 3G. This is to be used as an easy reference book. All the relevant references to the standards are included chapter by chapter. This is the first book on the two main subjects of Virtual Data Roaming and Seamless Technology change.

From reader reviews:

Charles Howell:

The e-book untitled Virtual Roaming Data Services and Seamless Technology Change: GSM, LTE, WiFi, Satellite, CDMA (River Publishers Series in Communications) is the reserve that recommended to you to learn. You can see the quality of the book content that will be shown to anyone. The language that article author use to explained their way of doing something is easily to understand. The author was did a lot of study when write the book, hence the information that they share for your requirements is absolutely accurate. You also can get the e-book of Virtual Roaming Data Services and Seamless Technology Change: GSM, LTE, WiFi, Satellite, CDMA (River Publishers Series in Communications) from the publisher to make you more enjoy free time.

Scott Foust:

This Virtual Roaming Data Services and Seamless Technology Change: GSM, LTE, WiFi, Satellite, CDMA (River Publishers Series in Communications) is great e-book for you because the content which is full of information for you who else always deal with world and possess to make decision every minute. This kind of book reveal it details accurately using great organize word or we can point out no rambling sentences in it. So if you are read this hurriedly you can have whole information in it. Doesn't mean it only provides straight forward sentences but tough core information with lovely delivering sentences. Having Virtual Roaming Data Services and Seamless Technology Change: GSM, LTE, WiFi, Satellite, CDMA (River Publishers Series in Communications) in your hand like getting the world in your arm, information in it is not ridiculous just one. We can say that no book that offer you world with ten or fifteen moment right but this publication already do that. So , this is good reading book. Hey there Mr. and Mrs. busy do you still doubt in which?

Mamie Donnelly:

As a scholar exactly feel bored to help reading. If their teacher requested them to go to the library or even make summary for some publication, they are complained. Just small students that has reading's heart and soul or real their leisure activity. They just do what the educator want, like asked to go to the library. They go to there but nothing reading critically. Any students feel that looking at is not important, boring in addition to can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore , this Virtual Roaming Data Services and Seamless Technology Change: GSM, LTE, WiFi, Satellite, CDMA (River Publishers Series in Communications) can make you truly feel more interested to read.

Gloria Lafreniere:

What is your hobby? Have you heard which question when you got learners? We believe that that query was

given by teacher to the students. Many kinds of hobby, Every individual has different hobby. So you know that little person similar to reading or as examining become their hobby. You must know that reading is very important in addition to book as to be the issue. Book is important thing to incorporate you knowledge, except your own teacher or lecturer. You find good news or update about something by book. Different categories of books that can you choose to use be your object. One of them is this Virtual Roaming Data Services and Seamless Technology Change: GSM, LTE, WiFi, Satellite, CDMA (River Publishers Series in Communications).
