Caught in the netherworld between college and a career, novice backpacker Jason Medley and adventuresome Theo Barnes stumble through this novel filled with European hash bars and hangovers, religious zealots and stalkers, saucy girls and overnight trains--all under the looming specter of adult responsibility.

But when a jar of the universe's DNA accidentally drops to Earth from eternity, these new friends find their loyalties put to the test, unaware that a motley crew from another realm is feverishly chasing them across the globe with the fate of the Milky Way hanging in the balance.

Traversing Europe, New Zealand, and the backbone of eternity, this hilarious buddy story not only tackles friendship, sex, love, and desire, but also God, reincarnation, and what really happened to the dinosaurs.
