Most Commons in Medicine

Edward F. Goljan

Most Commons in Medicine Edward F. Goljan

This pocket-sized, quick reference describes the most common causes of disease, signs and symptoms, lab findings, radiologic findings, complications, and management issues of every major disease in each system. In a concise, manner, it utilizes tables to relay information relative to all major areas of internal medicine. An emphasis is placed on physical diagnosis and pathogenesis of disease. Additionally, it reviews all areas commonly covered on the USMLE Steps II and III and provides questions similar to those used on the exam.
