Are You Running Your Business or is Your Business Running You? Virtual Assistant Assistant is the book for entrepreneurs who are looking for a way to take their business to the next level. If you've ever caught yourself thinking there just aren't enough hours in the day, there is a solution. And it won't make you go broke, either. Virtual assistants are essentially telecommuting contractors to your business. This book tells you everything you need to know about virtual assistants, including:

- Where to find the best ones
- How to hire them
- Best practices for working with them on an ongoing basis

It's written from firsthand experience, NOT theoretical or academic fluff. You'll learn how a talented virtual assistant can help **save you time, money, and headache.** Take control of your entrepreneurial life and learn how to effectively outsource your non-essential tasks. You'll free up hours every day to focus on what's really important. In the end, virtual assistants can help you lead a **happier, healthier, and more productive and stress-free life.** It's possible (and I would argue essential) to unload many aspects of your day-to-day work, leaving you free to tackle the higher-level, strategic, and money-making projects that often get neglected. **Time is Our Most Valuable Resource** But it's also the resource we are quickest to waste. With this book, you may not achieve the 4 Hour Work Week right away, but you'll get actionable advice on how to get started with outsourcing. The world's most successful people didn't get there alone; they all had help along the way. **What are you waiting for?** Hit the Buy Now button and get started today.
