*Larry Blythe*

**Creation and Evolution: Clear Reasons to Doubt Darwinian Evolution (pamphlet)** Larry Blythe  
Creation and Evolution pamphlet shows how scientific findings about paleontology, genetics, biochemistry, astrophysics and mathematics cannot be explained by Darwinian Evolution. For example, evolutionary theory says we ought to be able to expect human life to form from amino acids if given enough time, say 5 billion years. Modern mathematicians say that this is highly unlikely, even given 100 billion years, far longer than evolutionists believe the Earth has been in existence. Topical index: adaption, amino acids, astronomy, big bang theory, Cambrian explosion, chemical origins, Creation Research, creationism, Darwin, dating methods, evolutionary biology, fossil record, geology, heredity, intermediate fossil links, mathematical probabilities, molecular evolution, old earth theory, Science and Creation, species emergence, study of fossils, The Creation Hypothesis, The Genesis Flood, the missing link, theory of evolution, transitional life forms, young earth theory, zoology.
