Sparks: Welcome to the Madhouse Dan Cummings

Dave Reynolds has grown jaded with his life, locked in a dead end janitorial job at the Ravenswood Institute for Mental Health, he quietly yearns for some excitement to stir up his mundane existence. That is until he learns that far below the hospital's grounds lies the Madhouse, the regional headquarters of the Frontline Unified Battalion of Arcane Resistance (FUBAR), a clandestine government agency tasked with combating supernatural evil. If that wasn't enough of a surprise, he also learns that he is a Spark, an individual with latent gifts, carrying the residual energy of a nigh extinct race of universal protectors. Drafted into service, he is accidentally afflicted with a curse, casting the sensible, rational aspects of his personality into a subconscious prison, unleashing a clownish psychotic who is as deadly as he is irritating. A wild card personified, Dave must now lead Whiskey Team, a motley crew of fellow Sparks and freaks including a punk rock witch, a werewolf, a medium and his ghostly best friend, and a female Japanese ninja, against the Alliance of Nyx, an ancient demonic organisation with designs on global conquest. Now, if Dave's reckless antics don't get his team killed, they may just stand a chance in this war.
