**The Psychology of Human Possibility and Constraint (S U N Y Series, Alternatives in Psychology)** Jack Martin

This book addresses one of the most enduring debates within psychology, namely, the conflicting claims of those who adopt an individual, cognitivist perspective and those who adopt a social, culturalist perspective. The authors examine this debate and provide fresh insights that permit the bridging of traditional dualisms between self and society with respect to the subject matter of psychology, and between scientism and relativism with respect to knowledge about this subject matter.
