## **Unification of Fundamental Forces: The First 1988 Dirac Memorial Lecture** Abdus Salam

This is an expanded version of the third Dirac Memorial Lecture, given in 1988 by the Nobel Laureate Abdus Salam. Salam's lecture presents an overview of the developments in modern particle physics from its inception at the turn of the century to the present theories seeking to unify all the fundamental forces. In addition, two previously unpublished lectures by Paul Dirac, and Werner Heisenberg are included. These lectures provide a fascinating insight into their approach to research and the developments in particle physics at that time. Nonspecialists, undergraduates and researchers will find this a fascinating book. It contains a clear introduction to the major themes of particle physics and cosmology by one of the most distinguished contemporary physicists.

### **From reader reviews:**

#### **Lisa Gonzales:**

The book Unification of Fundamental Forces: The First 1988 Dirac Memorial Lecture can give more knowledge and information about everything you want. Why must we leave a very important thing like a book Unification of Fundamental Forces: The First 1988 Dirac Memorial Lecture? Wide variety you have a different opinion about book. But one aim that will book can give many details for us. It is absolutely proper. Right now, try to closer together with your book. Knowledge or details that you take for that, it is possible to give for each other; you may share all of these. Book Unification of Fundamental Forces: The First 1988 Dirac Memorial Lecture has simple shape but the truth is know: it has great and large function for you. You can search the enormous world by start and read a guide. So it is very wonderful.

#### **Marlene Childs:**

Reading a reserve can be one of a lot of task that everyone in the world really likes. Do you like reading book thus. There are a lot of reasons why people fantastic. First reading a book will give you a lot of new information. When you read a publication you will get new information mainly because book is one of a number of ways to share the information or maybe their idea. Second, reading through a book will make you more imaginative. When you examining a book especially fictional book the author will bring you to imagine the story how the people do it anything. Third, you could share your knowledge to others. When you read this Unification of Fundamental Forces: The First 1988 Dirac Memorial Lecture, you can tells your family, friends as well as soon about yours guide. Your knowledge can inspire others, make them reading a guide.

#### **Robert Schrader:**

Don't be worry if you are afraid that this book may filled the space in your house, you may have it in e-book approach, more simple and reachable. This Unification of Fundamental Forces: The First 1988 Dirac Memorial Lecture can give you a lot of close friends because by you considering this one book you have matter that they don't and make an individual more like an interesting person. This particular book can be one of a step for you to get success. This guide offer you information that maybe your friend doesn't learn, by knowing more than other make you to be great people. So , why hesitate? We need to have Unification of Fundamental Forces: The First 1988 Dirac Memorial Lecture.

#### **Harold Smith:**

What is your hobby? Have you heard that question when you got students? We believe that that query was given by teacher with their students. Many kinds of hobby, All people has different hobby. And you know that little person just like reading or as reading become their hobby. You must know that reading is very important and book as to be the matter. Book is important thing to incorporate you knowledge, except your personal teacher or lecturer. You see good news or update in relation to something by book. A substantial

number of sorts of books that can you choose to use be your object. One of them is Unification of Fundamental Forces: The First 1988 Dirac Memorial Lecture.
