Flexner:75 Years Later; A Current Commentary on Medical Education. Charles Vevier

In this new era of health care and high cost, insistent social demand, and advanced research and technology, there is a strong call among leaders and individual critics for change in the practices and operations in medical education. In the spirit of Abraham Flexner's 1910 *Report on Medical Education in the United States and Canada*, this book presents a lively critique of the state of today's medical education.
