Kierkegaard: Great Thinkers on Modern Life Robert Ferguson

Widely regarded as the first existentialist philosopher, Kierkegaard's philosophical priority of human reality over idealism and his emphasis on personal choice make him an astoundingly relevant thinker today

Soren Kierkegaard was a Danish philosopher, theologian, literary stylist and social critic. Born in 1813 in Copenhagen, his philosophical work addressed living as a single individual and the importance of personal choice. A famously fierce critic of the idealist thinkers of his time, including Hegel, Goethe, and Hans Christian Anderson, he is regarded as the first existentialist philosopher, and his *Fear and Trembling* is one of the classics of modern philosophy. Here you will find insights from his greatest works, in the "Great Thinkers on Modern Life" series, which highlights ideas most relevant to ordinary, everyday dilemmas.
