Wen-Ran Zhang

YinYang Bipolar Relativity: A Unifying Theory of Nature, Agents and Causality with Applications in Quantum Computing, Cognitive Informatics and Life Sciences Wen-Ran Zhang

YinYang bipolar relativity can trace its philosophical origins to ancient Chinese YinYang cosmology, which claims that everything has two sides or two opposite, but reciprocal, poles or energies. More specifically, this discipline is intended to be a logical unification of general relativity and quantum mechanics.

YinYang Bipolar Relativity: A Unifying Theory of Nature, Agents and Causality with Applications in Quantum Computing, Cognitive Informatics and Life Sciences presents real-world applications of YinYang bipolar relativity that focus on quantum computing and agent interaction. This unique work makes complex theoretical topics, such as the ubiquitous effects of quantum entanglement, logically comprehensible to a vast audience.

From reader reviews:

William Davis:

Do you have favorite book? Should you have, what is your favorite's book? Guide is very important thing for us to know everything in the world. Each publication has different aim or goal; it means that reserve has different type. Some people really feel enjoy to spend their time to read a book. They may be reading whatever they have because their hobby is actually reading a book. Think about the person who don't like examining a book? Sometime, particular person feel need book whenever they found difficult problem or perhaps exercise. Well, probably you will need this YinYang Bipolar Relativity: A Unifying Theory of Nature, Agents and Causality with Applications in Quantum Computing, Cognitive Informatics and Life Sciences.

James Bassler:

As people who live in the modest era should be revise about what going on or details even knowledge to make these individuals keep up with the era and that is always change and move forward. Some of you maybe will probably update themselves by looking at books. It is a good choice for you personally but the problems coming to you is you don't know what type you should start with. This YinYang Bipolar Relativity: A Unifying Theory of Nature, Agents and Causality with Applications in Quantum Computing, Cognitive Informatics and Life Sciences is our recommendation to make you keep up with the world. Why, because book serves what you want and want in this era.

Dana Barker:

Now a day individuals who Living in the era everywhere everything reachable by talk with the internet and the resources in it can be true or not need people to be aware of each facts they get. How a lot more to be smart in obtaining any information nowadays? Of course the correct answer is reading a book. Looking at a book can help men and women out of this uncertainty Information mainly this YinYang Bipolar Relativity: A Unifying Theory of Nature, Agents and Causality with Applications in Quantum Computing, Cognitive Informatics and Life Sciences book as this book offers you rich details and knowledge. Of course the info in this book hundred pct guarantees there is no doubt in it you probably know this.

Crystal Thomas:

This book untitled YinYang Bipolar Relativity: A Unifying Theory of Nature, Agents and Causality with Applications in Quantum Computing, Cognitive Informatics and Life Sciences to be one of several books this best seller in this year, here is because when you read this e-book you can get a lot of benefit on it. You will easily to buy this book in the book retail store or you can order it by way of online. The publisher in this book sells the e-book too. It makes you quickly to read this book, as you can read this book in your Cell phone. So there is no reason to your account to past this book from your list.
