When we think of technology, we might think only of our modern tools, such as electronics, computers, and cutting-edge gadgets, but civilizations throughout the ages have used technology to improve their lives. This informative resource will reveal that the ancient Mesopotamians were an innovative and forward-thinking people. They solved societal problems, such as regulating water to make sure they had a ready supply when they needed it. Readers will also be engaged throughout the volume with descriptions of their technological achievements, such as the construction of their cities, ziggurats, transportation, and weapons, just to name a few.
