This new edition of the AMA Code of Medical Ethics represents the first comprehensive review and update of the AMA Code in more than half a century. The only national code of ethics for all physicians, the AMA Code articulates the core values and ethical responsibilities of physicians who are charged with curing the sick when possible and comforting the dying always. This modernized edition of the AMA Code breathes new energy into this living document, while staying true to what it means to be a good doctor. While the AMA Code provides essential guidance for physicians, it is also regularly cited as the medical profession's authoritative voice in legal opinions, journal articles and media outlets.
