Fecundity Figures (Egyptology S) John Baines

Fecundity figures, personifications of non-sexual fertility, played a significant role in ancient Egyptian religious art. This detailed and comprehensive investigation of Egyptian iconography during the Old and New Kingdoms aims to classify the types of male and female figures represented, and so understand the intentions behind such personifications, whilst also placing the artwork within its cultural, religious and artistic context. In addition, the study includes a theoretical discussion of the form and function of personifications.
