The Science of Medical Intuition: Self-Diagnosis and Healing with Your Body's Energy Systems

Caroline Myss, Norman Shealy

Almost 20 years ago, a Harvard-trained neurosurgeon and researcher named Norman Shealy was introduced to a young woman with a special gift: she could see illness in other people with only her intuition to guide her. After extensive testing, Dr. Shealy concluded that her ability to diagnose illness even from remote distances was 93% accurate.

Today that medical intuitive Caroline Myss is a legend in the field of intuition and energy healing, with three *New York Times* bestsellers to her credit, including the blockbuster *Sacred Contracts*. And now, in a major publishing event, these two pioneering voices are together again in a revolutionary self-care curriculum, on *The Science of Medical Intuition*.

First presented by Myss and Shealy at a series of influential workshops, *The Science of Medical Intuition* is designed to help listeners take control of their total health, through intuitive self-diagnosis and healing techniques. Complete on 12 enriching sessions, more than 18 hours of learning and enhanced by a large format workbook developed exclusively for this course, *The Science of Medical Intuition* covers every phase of Myss and Shealy's groundbreaking approach to self-care, including the history of medical intuition, intuition self-training, chakra-by-chakra self-diagnosis, healing with imagery, surprising scientific evidence from medicine and physics, past lives and present health, decoding archetypal information, and much more.

At last, here is a full toolbox of self-diagnostic practices, visualizations, and healing insights, taught by Myss and Shealy in their own words, on *The Science of Medical Intuition*.
